Dear Ms Kato

Thank you for your correspondence (email) dated 2 July 2008, regarding searches of the Heritage Sites Database for various coordinates, grid area MGA94, Zone 54.

I advise that the Central Archive, which includes the Register of Aboriginal Sites and Objects (the Register), administered by the Aboriginal Affairs and Reconciliation Division (AARD), has no entries for Aboriginal sites in your project locations.

The Register is not a comprehensive record of all Aboriginal sites and objects in South Australia. The applicant is advised that sites or objects may exist in the proposed development area, even though the Register does not identify them. All Aboriginal sites and objects are protected under *the Aboriginal Heritage Act 1988* (the Act), whether they are listed in the Register or not. Land within 200 metres of a watercourse (particularly the River Murray and its overflow areas) in particular, may contain Aboriginal sites and objects.

It is an offence to damage, disturb or interfere with any Aboriginal site or damage any Aboriginal object (registered or not) without the authority of the Minister for Aboriginal Affairs and Reconciliation (the Minister). If the planned activity is likely to damage, disturb or interfere with a site or object, authorisation of the activity must be first obtained from the Minister under Section 23 of the Act. Section 20 of the Act requires that any Aboriginal sites, objects or remains, discovered on the land, need to be reported to the Minister. Penalties apply for failure to comply with the Act.

For further information, please contact the Aboriginal Heritage Branch on telephone (08) 8226 8938.

Yours sincerely
